

Overcomer Emiator

A passionate Programmer

Nigeria 310001

xceldeveloper@gmail.com

+2348158696460

I am a self-motivated passionate programmer willing to learn new technologies every day. I like to work with other people to build software applications with a keen eye for perfect design and optimization that will make a positive impact on people. Also I have the capability to work to tasks given to me with little to no supervision using the best approach to archive the desired results.

Work Experience

Per-time Frontend Developer

2GFields - Benin City

Present

I am a frontend developer working in 2Gfields assigned to a division called pord which is a educational software for students to have online classes. I built numerous components using html, css and Javascript.
