PROFILE

I am a competent programmer with a good interest in the information technology industry.

I am an undergraduate at the University of Benin, Nigeria in the Faculty of Physical Sciences studying Mathematics for the degree of B.Sc IND (Industrial Mathematics).

I have been programming for 3 years plus with various languages like Javascript, Java, Kotlin Python, and Dart.

I use various Frameworks such as Vue, JQuery, Materializecss, and Django for Website Development. I have also built Android Applications with Java, Kotlin, and also Nativescript cross-platform.

I have worked on various personal projects like Android Music Player, A small Social Community website, and some client projects.
